```
public class PastryFrame
extends javax.swing.JFrame
```

The PastryFrame is the frame that appears if the user decides to purchase a pastry. It contains drop downs, buttons, and check boxes to place a complete tea order. First, the user chooses their pastry type using a drop down menu. Then, a new drop down appears with flavors specific to their pastry of choice. The user has the option to either save their order or cancel at anytime. After purchase or cancellation, the user will be returned to the main frame.
